DETAILED ACTION

Drawings

1. Figures 2 and 7 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

2. Claims 1-26 are allowed.

3. The following is an examiner's statement of reasons for allowance: Claims 1-26 are allowed because the closest prior art of record fails to disclose a circuit as shown in Figure 3 wherein the timer circuit includes a counter (330) responsive to a clock signal (350) and the input signal (INPUT) enables the counter (330) to count the cycles of the clock signal (350) for a predetermined number of clock cycles and a timer control circuit (320) for pausing the ramp signal of the ramp timer (310) upon an occurrence of a first clock cycle following the enabling of the counter (330), and for restarting the ramp signal upon an occurrence of a last one of a predetermined number of clock cycles counted by the counter (330) in combination with the rest of the limitations of the base claims and any intervening claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
